MANAGING DIRECTOR

MESSAGE FROM MANAGING DIRECTOR

Now-a-days the Apparel Sector is playing a leading role among the other major industries of Bangladesh and this sector is growing rapidly in every year. Availability of skilled workforce in abundance that delivers quality product on time has been one of the motivations and satisfying factors for each and every investors.

About 80% of Export Earnings has gained from the apparel industry of Bangladesh. Comparing to any other sector in Bangladesh, Apparel industries have a greater contribution in terms of employment and foreign exchange earnings, which Facilate to the economic growth of our country.

Faiza Button and Zipper Ltd (FIZ) is a modern industry and innovative manufacturing enterprise setting up with latest high-tech accessories production facilities at Tongi, Gazipur, which is about 8 km away from Dhaka Hazrat Shahjalal International Airport with a very convenient transportation facility. FIZ is backed up with technical assistance and co-operation from foreign associates especially from China & Taiwan, to comfortably produce several types of quality consistent accessories which are required for the apparel industry of Bangladesh.

FIZ products range including Button and Metal Items, Zippers and other trims are used for different types of garments. It's all types of products conjoined with the growing demand of Retailers, Buying Houses and Export oriented Garments Industries. The key strengths of FIZ are suitable location, Product diversity and enormous capacity. So, it can be able to supply the goods within shortest possible time as per our customer requirements.

The company maintains high standards of quality and assures Quality Management System (QMS) in each and every step of its manufacturing process. Furthermore, FIZ is able to guarantee highly professional service to meet the customer's demand. Ensuring quality of products is our prime concern and we are committed to provide quality products to our present & potential customers. Our dedicated Marketing team as well as "TEAM FIZ" keenly looks forward to serve its customers for their accessories requirements and becoming the preferred supplier of exporters. Our dream is to be one of the best accessories' manufacturers both in countrywide and worldwide. "Your IMAGINATION is our CREATION" FIZ holds this slogan in every step of its operation.

Md. Jahangir Kabir
Managing Director

COMPANY PROFILE

Background:
Over the years Bangladesh has steadily grown and reached as one of largest garments exporter in the world. It sounds very simple but speaks volume for the people of Bangladesh within the country and abroad. In spite many challenges it has only happened due to hard working, professional attitude and aim to do better. We immensely proud of this achievement of our beloved nation. However, keeping in pace with the rising growth of the country, dreams of the Government agencies, Apparels export organization, and all the related agencies are dreaming to be the number one apparel exporter within next Few years. So, to achieve country's dreams, all the garments exporters, Accessories manufacturers and backward linkage organizations are working toghter.

Metal trims are part and parcel of apparel production and the growing demand of the same in Bangladesh market has been on the upward swing. Faiza Button and Zipper Limited (FIZ) would like to avail itself of this opportunity to be the part of the country's growth and dream of the nation. For that reason, FIZ started a new dimension and extraordinary quality products for the export market with the FIZ brand of its own production unit located at Tongi, Gazipur.

Mission & Goal:
It has focused to develop a brand "FIZ" to flourish country's branding image globally using high-tech equipment and adopting to state-of-the-art technology. This has enabled us to achieve best quality standards which have been verified by numerous leading inspections, verification, testing and certification bodies around the globe. Our belief is to provide high quality goods and services at competitive price within short lead time which would help FIZ to gain and retain greater satisfaction from buying houses, importers and garments factories.

Vision:
To be one of the best accessories' manufacturers both in nationally & globally and to be the long-term Strategic partner to many local & international clothing brands through its stable quality, safety, innovation and prompt service.

Location:
The location is very crucial for a manufacturing unit specially export oriented company. The manufacturing unit is situated at FIZ Tower, 219/1, Pagar, Tongi, Gazipur, an easy and convenient location from inside and outside of Dhaka city. It takes 30 minutes' drive from Hazrat Shahjalal International Airport. In our Country, most of the Apparel manufacturers are densely situated in and around Gazipur. Therefore, our customers will be able to avoid any lengthy custom's process and other related difficulties.

COMPANY PROFILE

Quality Control:
We are proud to employ key technical and highly experienced persons from China and from local sources to ensure products quality. FIZ has established a perfect Quality Management System and carried out trans-departmental group activities under Q.C department. Production process, Inspection Team, Customer protection mechanism, High quality production line etc have been designed and developed and to ensure effective control on defect-free output for the total satisfaction of its customers.

Production Area:
Main Building: - FIZ Tower is a 10 Storied building covering 1,14, 971 Sft. production area with each floor measuring over 11497.1 Sft.
Dyeing & Sewing Section: Separate compound covering 28,350 Sft. area. (Ground Floor to 2nd Floor)
ETP: Separate compound covering 4450 Sft. area.

Button Machinery:
- FIZ factory has equipped with full set of composite machineries for designing, tooling, grinding, electroplating & specialized coating and production for world class quality BUTTON.
- It has been introduced most modern and fully automated CNC- Engraving and EDM machine for Button.
- It has own work shop to provide feedback against all kinds of necessities for in-house technological solution.
- It has created a new dimension for electroplating finishing in the country.

Zipper Machinery:
- FIZ has introduced most modern Y-Teeth zipper machineries for metal zipper unit. And also running successfully with world famous MURKO machine for zipper production.
- Its Plastic/Vislon zipper machineries are sourced from Korea and Taiwan. All of the machines are fully automated.
- Nylon Zipper machineries are also imported from China and Taiwan. It has added a new top and Bottom plastic machine from korea.

COMPANY PROFILE

Electroplating:
- Electroplating is a main part of button manufacturing. As because button quality depends on its finishing. All the technicians are highly skilled and experienced.
- All the suggestions have been taken from Chinese experts and the process has been renovated throughout the year round.

Sewing Thread:
- All machineries are procured from Taiwan and China.
- Newly set-up the most modern high-speed machine to ensure conning quality and productivity.
- Data color machines for tone to tone matching.
- All machineries imported from Taiwan

Belt and Twill Tape:
- All machineries imported from Taiwan.

Poly Bag:
-Most of the machineries are imported from Taiwan.
